1. MANAGEMENT STATUS

(1) Management Status

(a) Overview of the Fiscal Period

a) Brief Background of the Investment Corporation

The Company was incorporated by Mori Building Investment Management Co., Ltd. (the Company's Asset Manager) on February 2, 2006 under the Act on Investment Trusts and Investment Corporations (Act No. 198 of 1951, as amended) (the "Investment Trust Act"), and was listed on the Real Estate Investment Trust Section of Tokyo Stock Exchange, Inc. (the "Tokyo Stock Exchange") on November 30, 2006 (Securities Code: 3234).

In the fiscal period under review (Thirty-Second fiscal period: February 1, 2022 to July 31, 2022), as of the end of the Thirty-Second fiscal period, the total number of investment units issued and outstanding was 1,916,330.

b) Investment Environment and Business Performance

(i) Investment Environment

In the thirty-second fiscal period, although the inflation caused by the rapid depreciation of the yen and the rise in resource prices resulted in downward pressure on economic activity, the Japanese economy managed to remain strong with recovery centered on consumer spending due to the easing of movement restrictions implemented as a countermeasure against the spread of COVID-19.

In such an economic environment, in the rental office market, the decrease in demand due to the spread of remote work triggered by the pandemic has gradually moderated, but rent levels maintained their sluggish conditions given weak demand for office expansion and vacancy rates remained at a relatively high level. As for the luxury rental housing market, occupancy rates and rent levels remained solid, driven by the ongoing stable demand for quality housing in central Tokyo amid new supply remaining at a certain level. In terms of the real estate trading market, the transaction amount decreased significantly driven particularly by reduced property acquisition activities by J-REITs, but transaction prices continued to be high with the ongoing favorable fund-raising environment backed by the continued accommodative monetary easing policy.

(ii) Business Performance

In the thirty-second fiscal period, the Company strove to maintain and enhance tenant satisfaction through measures such as efficient and systematic operational management and maintenance and repair of properties in its portfolio by better understanding tenant needs. Moreover, the Company maintained and enhanced occupancy rates and rents by proactively launching leasing activities targeting new and existing tenants while foreseeing trends in rental market conditions.

The Company's real estate portfolio, as of the end of the thirty-second fiscal period, was comprised of 11 properties (Note 1) under management with a total leasable area of 181,339.35m². The Company has already invested 409,252 million yen (based on the acquisition price) into this portfolio. The occupancy rate at the end of the thirty-second fiscal period (Note 2) was 98.3 %.

(Note 1) With regard to Roppongi View Tower, the Company acquired the trust beneficiary interest in 6% co-ownership interest on March 22, 2006 and the trust beneficiary interest in 40% co-ownership interest on April 13, 2006. However, the Company treats these as one property for the purpose of calculating the number of properties in the portfolio. On April 1, 2014, a split of co-owned property by the method of division in kind was conducted, resulting in the trust beneficiary interest in 6% co-ownership interest becoming trust beneficiary interest in compartmentalized ownership for 12 units and the trust beneficiary interest in 40% co-ownership interest becoming trust beneficiary interest in compartmentalized ownership for 80 units. The same applies hereafter.

With regard to ARK Mori Building, the Company made acquisitions as follows to date. However, the Company treats these as one property for the purpose of calculating the number of properties in the portfolio. The same applies hereafter.

- i) Trust beneficiary interest in compartmentalized ownership for the 13th floor portion on March 22, 2006.
- ii) 75% trust beneficiary interest quasi co-ownership interest in compartmentalized ownership for the 12th and 22nd floor portions on March 28, 2008.
- iii) The remaining 25% trust beneficiary interest quasi co-ownership interest in compartmentalized ownership for the 12th and 22nd floor portions on September 30, 2008.
- iv) 50% co-ownership interest in compartmentalized ownership for the 23rd floor portion on March 23, 2010. On March 18, 2011, the co-ownership interest was subsequently entrusted and the Company has held trust beneficiary interest therein.
- v) Trust beneficiary interest in the remaining 50% co-ownership interest in compartmentalized ownership for the 23rd floor portion and compartmentalized ownership for the 25th floor portion on March 18, 2011.
- vi) Trust beneficiary interest in compartmentalized ownership for the 4th, 15th and 24th floor portions on August 1, 2011.
- vii) Trust beneficiary interest in compartmentalized ownership for the area used as district heating and cooling on the 1st floor and below ground 1st to 4th floor portions on April 1, 2013.

With regard to Akasaka Tameike Tower, the Company made acquisitions as follows to date. However, the Company treats these as one property for the purpose of calculating the number of properties in the portfolio. The same applies hereafter.

- i) Trust beneficiary interest in office and shop areas (including parts of storage areas, parking lots, etc.) (approximately 35.5% of total exclusive floor area) on September 30, 2008.
- ii) Trust beneficiary interest in residential area (including parts of parking lots, etc.) (approximately 30.0% of total exclusive floor area) on March 18, 2011.

With regard to Roppongi Hills Mori Tower, the Company made acquisitions as follows to date. However, the Company treats these as one property for the purpose of calculating the number of properties in the portfolio. The same applies hereafter.

- i) 50% co-ownership interest in compartmentalized ownership for the 24th floor portion on March 23, 2010. On August 1, 2011, the co-ownership interest was subsequently entrusted and the Company has held trust beneficiary interest therein.
- ii) Trust beneficiary interest in compartmentalized ownership for the 23rd floor portion and the remaining 50% co-ownership interest in compartmentalized ownership for the 24th floor portion on August 1, 2011.
- iii) Trust beneficiary interest in compartmentalized ownership for the 19th and 22nd floor portions on October 1, 2013.
- iv) Trust beneficiary interest in compartmentalized ownership for the 20th floor portion on August 1, 2014.
- v) Trust beneficiary interest in compartmentalized ownership for the 28th floor portion on September 16, 2015.
- vi) Trust beneficiary interest in compartmentalized ownership for the 25th floor portion on February 1, 2016.
- vii) Trust beneficiary interest in compartmentalized ownership for the 26th, 27th and 29th floor portions on April 1, 2016.

With regard to Atago Green Hills, the Company made acquisitions as follows to date. However, the Company treats these as one property for purpose of calculating the number of properties in the portfolio. The same applies hereafter.

- i) 45% trust beneficiary interest quasi co-ownership interest in co-ownership interest in ownership and compartmentalized ownership of Atago Green Hills' 3 buildings (MORI Tower, Forest Tower and Plaza), as well as co-ownership interest in ownership of the sites and quasi co-ownership interest in leasehold rights and easement of the sites (approximately 20.0% of total exclusive floor area) on May 1, 2012.
- ii) 29% trust beneficiary interest quasi co-ownership interest in co-ownership interest in ownership and compartmentalized ownership of Atago Green Hills' 3 buildings (MORI Tower, Forest Tower and Plaza), as well as co-ownership interest in ownership of the sites and quasi co-ownership interest in leasehold rights and easement of the sites (approximately 12.9% of total exclusive floor area) on April 1, 2013.

With regard to Toranomori Hills Mori Tower, the Company made acquisitions as follows to date. However, the Company treats these as one property for the purpose of calculating the number of properties in the portfolio. The same applies hereafter.

- i) 7% quasi co-ownership interest in the trust beneficial interests in 87.95% co-ownership interest in compartmentalized ownership for the 28th to 35th floor portions (approximately 1.0% of total exclusive floor area) on August 1, 2017.
- ii) 7% quasi co-ownership interest in the trust beneficial interests in 87.95% co-ownership interest in compartmentalized ownership for the 28th to 35th floor portions (approximately 1.0% of total exclusive floor area) on March 1, 2018.
- iii) 36% quasi co-ownership interest in the trust beneficial interests in 87.95% co-ownership interest in compartmentalized ownership for the 28th to 35th floor portions (approximately 5.0% of total exclusive floor area) on September 3, 2018.
- iv) 17% quasi co-ownership interest in the trust beneficial interests in 87.95% co-ownership interest in compartmentalized ownership for the 28th to 35th floor portions (approximately 2.4% of total exclusive floor area) on September 1, 2020.
- v) 11% quasi co-ownership interest in the trust beneficial interests in 87.95% co-ownership interest in compartmentalized ownership for the 28th to 35th floor portions (approximately 1.5% of total exclusive floor area) on August 2, 2021.

With regard to Holland Hills Mori Tower, the Company made acquisitions as follows to date. However, the Company treats these as one property for the purpose of calculating the number of properties in the portfolio. The same applies hereafter.

- i) 57% quasi co-ownership interest in the trust beneficial interests in compartmentalized ownership of the 3rd-4th, part of the 5th, 14-18th and 22nd-24th floors (approximately 27.6% of total exclusive floor area) on August 1, 2017.
- ii) 15% quasi co-ownership interest in the trust beneficial interests in compartmentalized ownership of the 3rd-4th, part of the 5th, 14-18th and 22nd-24th floors (approximately 7.3% of total exclusive floor area) on March 1, 2018.
- iii) 28% quasi co-ownership interest in the trust beneficial interests in compartmentalized ownership of the 3rd-4th, part of the 5th, 14-18th and 22nd-24th floors (approximately 13.6% of total exclusive floor area) on September 3, 2018.

(Note 2) The occupancy rate at the end of the fiscal period is calculated by dividing the aggregate of the total leased area for all properties at the end of the fiscal period by the aggregate of the total leasable area for all properties at the end of the fiscal period, which is rounded off to one decimal place.

c) Overview of Fund Procurement

In the fiscal period under review, the Company took out long-term loans payable in the amount of 9,500 million yen for the refinancing of existing long-term loans payable in the amount of 9,500 million yen.

As a result, as of the end of the thirty-second fiscal period, a) the balance of loans payable stands at 172,122 million yen (all of these are long-term loans payable (of which, the current portion of long-term loans payable is 15,200 million yen)), b) the balance of investment corporation bonds stands at 20,300 million yen, and c) the balance of interest-bearing debt stands at 192,422 million yen.

Of the debt, in addition to the 20,300 million yen in investment corporation bonds and 11,079 million yen in long-term loans payable that have fixed interest rates, the Company utilizes interest rate swaps to in effect convert the interest rates for loans payable that have floating interest rates into fixed interest rates in order to hedge against the risk of upward fluctuations in interest rates. Such measures have been taken for 138,666 million yen of the 161,043 million yen in long-term loans payable that have such floating interest rates (the ratio of fixed rate debt against total interest-bearing debt as of the end of the thirty-second fiscal period is 88.4%). With respect to future debt, the Company will strive to minimize refinancing risks by diversifying repayment dates for such debt.

As of the end of the thirty-second fiscal period, the Company has obtained an AA long-term issuer rating (rating outlook: stable) from Japan Credit Rating Agency, Ltd.

(Note) Short-term loans payable are loans payable with a term of one year or less (from the drawdown date to the repayment date) and long-term loans payable are loans payable with a term of over one year (from the drawdown date to the repayment date). The same applies hereafter.

d) Overview of Business Results and Distributions

The asset management activities described above resulted in the Company recording in the thirty-second fiscal period 11,197 million yen in operating revenue, 6,985 million yen in operating income, 6,443 million yen in ordinary income and 6,443 million yen in net income.

With regard to dividends, pursuant to the terms of the distribution policy set forth in Article 37 (1) of the Company's Articles of Incorporation, the amount of dividends shall be in excess of an amount equivalent to 90% of the Company's earnings available for dividends as defined in Article 67-15 of the Special Taxation Measures Law, but not in excess of the amount of earnings as defined in Article 136, Paragraph 1 of the Investment. In the thirty-second fiscal period, the Company decided to accumulate part of the gain on transfer of Laforet Harajuku (Land), which was transferred in July 2022, as reserve for reduction entry by applying Article 65-7 "Special Provisions for Taxation in Cases of Replacement of Certain Assets" of the Special Taxation Measures Law. Accordingly, the Company decided to pay out dividends of earnings (5,806,479,900 yen), which is the maximum integral multiple of the total number of investment units issued and outstanding (1,916,330 units), out of the amount remaining after reserving said reserve for reduction entry and retained earnings carried forward from the unappropriated retained earnings.

As a result, the Company declared dividends per unit of 3,030 yen.

(b) Outlook for the Next Fiscal Period

a) Future Management Policy

Pursuant to the Company's investment policy, the Company will seek to grow and increasingly enhance the profitability and value of assets under management by focusing on the competitiveness and the ability to create value attributable to "urban" areas (central Tokyo being the core area) and concentrating investment into "urban" areas. Specifically, the Company will seek to develop an urban portfolio centered on office buildings, residential properties, and retail and other facilities with competitive advantages in terms of quality, scale, and other specifications that can maintain a strong competitive position into the future and that are situated in "Premium Areas" ("Premium Properties" (Note)). The quintessential example is the "Hills" brand of large redevelopment properties exhibiting high creativity and added-value in a manner that has been developed and perfected over the years by the Mori Building Group.

With respect to the management of properties in the portfolio, the Company will seek to ensure stable revenue over the medium to long term and maintain and enhance the asset value of its portfolio by adopting the basic policy of enhancing tenant satisfaction and conducting rational, efficient and systematic asset management and administration.

In addition, the Company will continue to seek maximization of unitholder value by maintaining and increasing dividends continuously while retaining stability of earnings through fixed-rent master leases alongside actively pursuing external growth utilizing the property pipeline of Mori Building Group.

(Note) Premium Properties refer to properties with competitive advantages in terms of quality, scale, and other specifications that can maintain a superior competitive position into the future and that are situated in "Premium Areas" (Tokyo's five central wards (Minato Ward, Chiyoda Ward, Chuo Ward, Shinjuku Ward and Shibuya Ward) and their vicinity; the same applies hereafter), where the Mori Building Group (Mori Building Co., Ltd., Mori Building Co., Ltd.'s consolidated subsidiaries and equity-method affiliates of Mori Building Co., Ltd., that conduct business in Japan; the same applies hereafter) can fully demonstrate its brand/marketing strength and facilities management capabilities, etc.

b) Significant Subsequent Events

(Note) The forecasted figures above are calculated as of today based on certain assumptions. Forecasts for operating revenue, operating income, ordinary income, net income, dividends per unit and dividends in excess of earnings per unit may differ from actual results due to changes in operating conditions and a variety of factors. Furthermore, these forecasts shall not be construed as a guarantee of dividends.

Assumptions of Forecasts of Results for the Thirty-Third Fiscal Period Ending January 31, 2023 (August 1, 2022 – January 31, 2023) and the Thirty-Fourth Fiscal Period Ending July 31, 2023 (February 1, 2023 – July 31, 2023)

Item	Assumptions
Accounting Period	<p>Thirty-Third fiscal period: August 1, 2022 – January 31, 2023 (184 days)</p> <p>Thirty-Fourth fiscal period: February 1, 2023 – July 31, 2023 (181 days)</p>
Portfolio Assets	<ul style="list-style-type: none"> • Regarding the 11 properties held as of the end of the fiscal period ended July 31, 2022, the Company has reflected the impact of the transfer of part of Laforet Harajuku (Land) scheduled on December 1, 2022, and assumes that another part of the property will be transferred on July 1, 2023, although such transfer has not yet been determined as of the date of this document. • The actual portfolio assets may differ from this assumption due to additional changes.
Operating Revenue	<ul style="list-style-type: none"> • Rent revenues are estimated based on lease agreements, etc., taking into account the market environment, the trends of individual tenants and other factors. • Gain on transfer of the above portfolio assets is expected to be 1,345 million yen for the fiscal period ending January 31, 2023 and 1,361 million yen for the fiscal period ending July 31, 2023. • The Company assumes that there will be no delinquencies or non-payment of rents by tenants.
Operating Expenses	<ul style="list-style-type: none"> • For expenses related to properties, major operating expenses of 3,515 million yen and 3,534 million yen are expected for the fiscal periods ending January 31, 2023 and July 31, 2023, respectively. Expenses other than those below are calculated by referring to historical figures and adjusted to reflect variable factors. <ul style="list-style-type: none"> (i) For property taxes, city planning taxes, etc., 786 million yen (for six months) and 809 million yen (for six months) are expected for the fiscal period ending January 31, 2023 and July 31, 2023, respectively. (ii) For building maintenance and repairs, the Company recorded the estimated required amount for the respective fiscal periods as 93 million yen for the fiscal period ending January 31, 2023 and 81 million yen for the fiscal period ending July 31, 2023. However, please note that the actual expenses for maintenance and repairs in the respective fiscal periods may differ materially from the estimated amounts due to various reasons. For example, an unforeseeable event may cause serious damage to a building and emergency repairs may be required as a consequence. Also, maintenance and repairs are expenses that are not accrued on a regular basis and the amount of variation may vary significantly from one period to the next. (iii) Depreciation and amortization, which are calculated using the straight-line method with future additional capital expenditures taken into account, are expected to be 1,090 million yen in the fiscal period ending January 31, 2023 and 1,104 million yen in the fiscal period ending July 31, 2023. (iv) For property management fees, 1,196 million yen is expected for the fiscal period ending January 31, 2023 and 1,180 million yen is expected for the fiscal period ending July 31, 2023. • For the operating expenses other than expenses related to properties (asset management fee, asset custody fee, administrative service fees, etc.), 744 million yen is expected for the fiscal period ending January 31, 2023 and 740 million yen is expected for the fiscal period ending July 31, 2023.

Item	Assumptions
Non-Operating Expenses	<ul style="list-style-type: none"> • The Company expects to incur 355 million yen for the fiscal period ending January 31, 2023 and 347 million yen for the fiscal period ending July 31, 2023 in interest expenses, 52 million yen for the fiscal period ending January 31, 2023 and 52 million yen for the fiscal period ending July 31, 2023 in interest expenses on investment corporation bonds, and 120 million yen for the fiscal period ending January 31, 2023 and 115 million yen for the fiscal period ending July 31, 2023 in borrowing expenses. • The Company expects to incur 5 million yen for the fiscal period ending January 31, 2023 and 5 million yen for the fiscal period ending July 31, 2023 in amortization of investment unit issuance expenses.
Interest-Bearing Debt	<ul style="list-style-type: none"> • The Company's balance of interest-bearing debt as of the end of the fiscal period ended July 31, 2022 is 192,422 million yen. • The balance of loans payable outstanding as of the end of the fiscal period ended July 31, 2022 is 172,122 million yen. The Company assumes that, of that amount, the 15,200 million yen balance of loans payable due for repayment by the end of the fiscal period ending July 31, 2023 will be refinanced in the entire amount. • The Company assumes that there will be no change to the balance of 20,300 million yen of investment corporation bonds as of the end of the fiscal period ended July 31, 2022 through the end of the fiscal period ending July 31, 2023.
Issuance of Investment Units	<ul style="list-style-type: none"> • The number of investment units issued and outstanding as of the date of this report is 1,916,330 units. The Company assumes that there will be no additional issuance of investment units until the end of the fiscal period ending July 31, 2023.
Dividends per Unit (excluding dividends in excess of earnings)	<ul style="list-style-type: none"> • Dividends per unit are calculated based on the assumption that the Company will make distributions in accordance with the distribution policy set forth in its Articles of Incorporation. • Dividends per unit are calculated based on the assumption that part of the gain on transfer of the above portfolio assets in the fiscal period ending January 31, 2023 (1,345 million yen) will be accumulated as reserve for reduction entry by applying Article 65-7 "Special Provisions for Taxation in Cases of Replacement of Certain Assets" of the Special Taxation Measures Law. Part of the gain on transfer of the above portfolio assets in the fiscal period ending July 31, 2023 (1,361 million yen) is assumed to be accumulated as reserve for special account for advanced depreciation based on the assumption that the application period of the current special measures on replacement of assets held for a long period for which certain tax deferral is allowed (No.4 in the table in Article 65-7, Paragraph 1 of the Special Taxation Measures Law) will be extended for the gain on transfer of the transferred assets in the case of replacement of business assets whose holding period is more than 10 years. • Dividends per unit may vary due to various factors, including changes in the portfolio assets, changes in rent income due to tenant replacement, unexpected repairs, changes in interest rates, or additional issuance of new investment units.
Dividends in Excess of Earnings per Unit	<ul style="list-style-type: none"> • At present, the Company has no plan to make any cash distributions in excess of earnings (dividends in excess of earnings per unit).
Other	<ul style="list-style-type: none"> • The Company assumes that there will be no amendments to legislation, taxation, accounting standards, listing regulations, the Investment Trusts Association's rule, etc. that would affect the above forecasts. • The Company assumes that there will be no unforeseen material changes in general economic conditions, the real estate market, etc.

(6) Notes to assumption of going concern

Not applicable.

(7) Summary of significant accounting policies

(a) Property, plant and equipment (including assets in trust) and depreciation

Depreciation of property, plant and equipment of the Company is calculated principally by the straight-line method based on the following estimated useful lives determined by the Company. Significant renewals and additions are capitalized at cost. Maintenance and repairs are charged to income.

Buildings	3~68 years
Structures	3~68 years
Machinery and equipment	8~33 years
Tools, furniture and fixtures	3~15 years

(b) Intangible assets (including assets in trust)

Intangible assets are amortized by the straight-line method based on the estimated useful lives.

(c) Long-term prepaid expenses

Long-term prepaid expenses are amortized by the straight-line method based on the estimated useful lives.

(d) Investment corporation bonds issuance cost

Investment corporation bonds issuance cost is amortized using the straight-line method over the term of the bonds.

(e) Investment unit issuance cost

Investment unit issuance cost is amortized using the straight-line method over three years.

(f) Revenue recognition

The details of main performance obligations concerning revenue generated from contracts between the Company and its customers and the normal point in time to satisfy said performance obligations (normal point in time to recognize revenue) are as follows.

a) Transfer of real estate

For the proceeds from transfer of real estate, the Company recognizes revenue when the purchaser who is a customer obtains control of the relevant real estate as a result of the seller fulfilling its delivery obligations stipulated in the transaction agreement of the real estate.

b) Utilities income

The Company recognizes utilities income in accordance with the supply of electricity and water, etc. to the lessee who is a customer based on the lease agreement of real estate and details of agreements incidental to it. Of the utilities income, in the case that the Company deems itself to be an agent, the net amount obtained by deducting the amount it pays to other parties from the amount it receives as charges for electricity and gas, etc. supplied by the said other parties is recognized as revenue.

(g) Accounting for property taxes

For property tax, city planning tax and depreciable assets tax, the Company charges the amount of property taxes assessed and determined applicable to the fiscal period to expenses related to properties.

Registered owners of properties in Japan as of January 1 are responsible for paying property taxes for the calendar year based on assessments by local governments. Therefore, registered owners who sold properties to the Company were liable for property taxes for the calendar year, including the period from the date of the acquisition by the Company until the end of the year. The Company reimbursed sellers of properties for the equivalent amount of property taxes and included the amount in the acquisition cost of real estate. The amount equivalent to property taxes included in the cost of acquisition of real estate was 10,716 thousand yen for the period ended January 31, 2022 and none for the period ended July 31, 2022, respectively.

(h) Hedge accounting approach

a) Hedge accounting approach

Deferred hedge accounting is applied for interest rate swap transactions. However, special treatment is applied for interest rate swaps when the requirements for special treatment are fulfilled.

b) Hedging instruments and hedged items

Hedging instruments:	Interest rate swap transactions
Hedged items:	Borrowing interest rates

c) Hedging policy

The Company conducts derivative transactions to hedge risks as stipulated in the Company's Articles of Incorporation in accordance with the Company's risk management policy.

d) Method for assessing the effectiveness of hedging

The Company evaluates by comparing the cumulative change in market rates of hedged items and hedging instruments or cash flow and based on the amount of change in both during the period from the start of hedging to when the effectiveness is being determined.

However, assessment of the effectiveness is omitted if the important conditions regarding hedging instruments and hedged items are identical and if it can be assumed that fluctuations of market rates or cash flow can be completely offset from when the hedge begins. Moreover, assessment of the effectiveness is omitted for interest rate swaps when the requirements for special treatment are fulfilled.

(i) Cash and cash equivalents

Cash and cash equivalents in the statement of cash flows consist of cash on hand and deposits in trust; deposits and deposits in trust that can be withdrawn at any time; and short-term investments with a maturity of three months or less from the date of acquisition, which are readily convertible to cash and bear only an insignificant risk of price fluctuation.

(j) Accounting for trust beneficial interest in real estate

For trust beneficial interest in real estate owned by the Company, all accounts of assets and liabilities within the assets in trust as well as all accounts of revenue generated and expenses incurred from the assets in trust are recognized in the relevant accounts of the balance sheet and statement of income and retained earnings.

The following material items of the assets in trust recognized in the relevant accounts are separately listed on the balance sheet.

a) Cash and deposits in trust

b) Buildings in trust; structures in trust; machinery and equipment in trust; tools, furniture and fixtures in trust; land in trust; construction in progress in trust; leasehold rights in trust; and other intangible assets in trust

c) Lease and guarantee deposits in trust

(k) Non-deductible consumption taxes

Non-deductible consumption taxes related to the acquisition of assets are treated as the acquisition cost of applicable assets.

5. Financial instruments

(1) Policy for financial instruments

(a) Policy for holding financial instruments

The Company makes use of various financial instruments in order to invest surplus funds efficiently. In addition, concerning fund procurement, the Company adopts a policy of undertaking such fund raising primarily through the issuance of investment units, the borrowing of funds and the issuance of investment corporation bonds. The Company limits derivative transactions to those that are entered into for the purpose of hedging the risk of future fluctuations in interest rates on loans payable, and does not engage in speculative transactions.

(b) Description of financial instruments and associated risks, and risk management structure

Deposits used for investing the Company's surplus funds are exposed to credit risks, for example, the failure of the financial institutions that are holding the deposits, but the Company limits the risks by diversifying financial institutions.

Investment corporation bonds and long-term loans payable are used for fund procurement associated with the acquisition of real estate related assets or repayment of loans payable. Of these, loans payable with variable interest rates are exposed to the risk of fluctuations in interest rates, but derivative transactions are utilized as hedging instruments.

Interest rate swaps are utilized with the Company seeking to, in effect, convert fluctuating interest rates on fund procurement into fixed interest rates. For information on the method of hedge accounting approach, hedging instruments and hedged items, hedging policy and method for assessing the effectiveness of hedging, please refer to "Summary of significant accounting policies: (g) Hedge accounting approach."

Concerning derivative transactions, risks are managed pursuant to the risk management policy set forth by the Company.

(c) Supplementary explanation on matters concerning fair value of financial instruments

Certain assumptions, etc. are used in calculating the fair value of financial instruments, and there can be cases where the values may vary based on different assumptions, etc. In addition, concerning the contract amount of derivative transactions in "Derivative transactions" below the amount itself does not represent the value of the market risks associated with the derivative transactions.

(2) Fair value of financial instruments

The following are the carrying amount, fair value and the difference between them of financial instruments as of January 31, 2022. Furthermore, notes on “Cash and deposits,” “Cash and deposits in trust” are omitted as these are settled with cash and within a short period of time and thus the fair value approximates the book value. Notes on “Tenant leasehold and security deposits” are also omitted as they lack materiality.

(Note 2) Method of calculating the fair value of financial instruments, and derivative transactions

Liabilities

(a) Current portion of investment corporation bonds; (c) Investment corporation bonds

The fair value of these is based on market prices.

(b) Current portion of long-term loans payable; (d) Long-term loans payable

Of long-term loans payable, as those with variable interest rates reflect market interest rates within a short period of time, the fair value is thought to be approximately the same as the book value and is thus stated at that book value (However, long-term loans payable with variable interest rates that are subject to special treatment for interest rate swaps (please refer to “Derivative transactions” below) are based on a calculation method of discounting the sum total amount of principal and interest accounted for together with said interest rate swaps by the rate reasonably estimated as being applicable in the event of a similar transaction.). Meanwhile, those with fixed interest rates are based on a calculation method of discounting the sum total amount of principal and interest by the rate reasonably estimated as being applicable in the event of a similar transaction.

(Note 2) Of the increase (decrease) during the period ended January 31, 2022, the increase is primarily attributable to the acquisition of property (Toranomori Hills Mori Tower (approximately 1.5% of total exclusive floor area) (7,893,162 thousand yen)), the decrease is primarily attributable to depreciation and amortization.

Of the decrease during the period ended July 31, 2022, the decrease is primarily attributable to the transfer of the property (Laforet Harajuku (Land) (1,545,191 thousand yen) and attributable to depreciation and amortization.

(Note 3) The fair value at end of the period is the appraisal value by a real estate appraiser (according to the “Real Estate Appraisal Report” with the date of settlement of accounts as the appraisal date) pursuant to the method of and standards for asset valuation provided in the Company’s Articles of Incorporation and the rules provided by The Investment Trusts Association, Japan.

Income and loss for investment and rental properties is presented in “Breakdown of property-related revenue and expenses.”

(b) Transaction value allocated to the remaining performance obligations

For the six months ended January 31, 2022

Not applicable.

With regard to utilities revenue, as the Company has the right to receive from customers an amount directly corresponding to the value for the lessees, or customers, of sections for which performance is complete by the end of the fiscal period, the amount it has the right to claim is recognized as revenue in accordance with Paragraph 19 of the Implementation Guidance on Accounting Standard for Revenue Recognition. Accordingly, such is not included in the note on transaction value allocated to remaining performance obligations through application of the provisions of Paragraph 80-22 (2) of the Accounting Standard for Revenue Recognition.

For the six months ended July 31, 2022

As of July 31, 2022, the total amount of the transaction price allocated to remaining performance obligations pertaining to the transfer of real estate, etc. is 2,898,000 thousand yen due to real estate, etc. for which a transfer agreement was concluded on March 17, 2022. The Company expects to recognize revenue for these performance obligations due to the transfer of trust beneficiary interest (7% quasi co-ownership interest) of the above real estate, etc., which was planned for December 1, 2022.

With regard to utilities revenue, as the Company has the right to receive from customers an amount directly corresponding to the value for the lessees, or customers, of sections for which performance is complete by the end of the fiscal period, the amount it has the right to claim is recognized as revenue in accordance with Paragraph 19 of the Implementation Guidance on Accounting Standard for Revenue Recognition. - (Note 1) "Property number" is the number assigned to and real estate in trust held by the Company classified into the following main types of use. The alphabet on the left represents the main type of use, where "O" represents an office building, "R" represents a residential property and "S" represents a retail and other facility. In addition, Premium Properties are denoted by "Premium." The same applies hereafter.
- (Note 2) "Construction date," "Structure/Total number of floors," "Land area" and "Gross floor area" are as described in the property registry. As for "Structure/Total number of floors," the following abbreviations are used.
RC: Reinforced concrete; SRC: Steel frame and reinforced concrete; S: Steel frame;
B: Number of basement floor; F: Number of floor above ground level
- (Note 3) "Land area" and "Gross floor area" indicate the area of the entire site and the total area floor of the entire building based on the description of the property registry, regardless of the form of ownership.
- (Note 4) "Form of ownership" is the type of rights, where "O" represents ownership rights, "C" represents a co-ownership interest in ownership rights, "CO" represents compartmentalized ownership of exclusive portion of a building, and "L" represents leasehold rights.
- (Note 5) "Appraisal value at the end of fiscal period" for properties except for ARK Hills South Tower is the appraisal value as of July 31, 2022 as described in the real estate appraisal report prepared by Japan Real Estate Institute. The figure for ARK Hills South Tower is the appraisal value as of July 31, 2022 as described in the real estate appraisal report prepared by DAIWA REAL ESTATE APPRAISAL CO., LTD.
- (Note 6) "Percentage of total portfolio acquisition price" is calculated as a percentage of the aggregate acquisition price of the Company's portfolio.
- (Note 7) Co-ownership interest as a portion of the land use rights.
- (Note 8) The land of Akasaka Tameike Tower is composed of the land owned by a third party (parcel number 1705-1) and the land jointly owned by the trustee and Mori Building Co.,Ltd. (parcel number 1701-1). The trustee's co-ownership interest ratio of the land (parcel number 1701-1) is approximately 98.6% and the area corresponding to the co-ownership interest ratio is 3,211.94m². The same applies hereafter.
- (Note 9) "Land area" for Atago Green Hills is the area of the entire land over which land use rights for the building have been established pursuant to the rules of the Atago Green Hills Management Meeting.
- (Note 10) The land of Atago Green Hills is composed of the land owned by third parties and the land jointly owned by the trustee and Mori Building Co., Ltd. and leasehold rights and easement jointly owned by the trustee and Mori Building Co., Ltd. The land corresponding to each building is determined pursuant to the rules of the Atago Green Hills Management Meeting.
- (Note 11) The buildings of Atago Green Hills are composed of parts owned by third parties through compartmentalized ownership and other parts jointly owned by the trustee and Mori Building Co., Ltd. through direct ownership and compartmentalized ownership.
- (Note 12) The Company owns 25% co-ownership interest of the building and the site.
- (Note 13) The land of Holland Hills Mori Tower is composed of the land owned by the Tokyo Metropolitan Government (3-802-2 Shibakoen and 1-224-28 Azabudai) and the land jointly owned by the trustee and Mori Building Co., Ltd. under joint ownership (5-124-1 Toranomom and 3-803-3. Shibakoen). The trustee's co-ownership interest ratio of the land (5-124-1 Toranomom and 3-803-3. Shibakoen) is approximately 62.9% and the area corresponding to the co-ownership interest ratio is 1,910.96m². The same applies hereafter.
- (Note 14) As Roppongi First Plaza and Roppongi View Tower are on the same site and are described in the property registry as one building owned through compartmentalized ownership, the land area and the gross floor area for these properties are added together. The land corresponding to each building has been determined pursuant to its management rules and is owned in the land use rights ratio.
- (Note 15) Roppongi First Plaza and Roppongi View Tower are described in the property registry as one building owned through compartmentalized ownership. 42 residential units out of the total of 90 residential units in Roppongi First Plaza are owned through compartmentalized ownership. 92 residential units out of the total of 202 residential units in Roppongi View Tower are owned through compartmentalized ownership.

Total			181,339.35	178,203.13	98.3	358	19,362	14,708

(Note 1) We treat as a fixed-rent master lease when we grant the authority to lease the property to other co-owner and receive a fixed amount in consideration. The same applies hereafter.

(Note 2) “Total leasable area” is the area of the space deemed to be available for the end-tenants. In the case where we lease the entire space to any one tenant in the form of a fixed-rent master lease or where we grant the authority to lease the property to other co-owner and a fixed amount is paid to us in consideration of such granting, such tenant or co-owner is deemed to be the end-tenant. The same applies hereafter. “Total leased area” is equivalent to total floor area of leased space set out in the lease agreements, etc. with the end-tenants. In the case of Koraku Mori Building, Atago Green Hills, Toranomon Hills Mori Tower and Laforet Harajuku (Land), this indicates 80%, 74%, 78% and 93% of the proportionate ownership ratio, respectively, of the foregoing total leasable area and total leased area, which is rounded off to two decimal places. In the case of ARK Hills South Tower, it indicates 25% of co-ownership interest ratio of the total leasable area and total leased area of the building, which is rounded off to two decimal places. In the case of Akasaka Tameike Tower, the office and shop portions are calculated by multiplying Total leasable area and Total leased area concerning the private-use areas of sectional ownership owned by the trustee, the Asahi Shimbun Company and Mori Building Co., Ltd (all of the relevant portions under these uses) by the distribution ratio for the trust beneficiary interest owned by Mori Hills REIT Investment Corporation (ratio stated in the agreement to amend building lease agreement concluded on July 29, 2016) (65.9%), and the residential portion is calculated by multiplying Total leasable area and Total leased area concerning the private-use areas of sectional ownership owned by the trustee and the Asahi Shimbun Company (128 units) by the distribution ratio for the trust beneficiary interest owned by Mori Hills REIT Investment Corporation (ratio stated in the agreement to amend building lease agreement concluded on January 6, 2016) (67%), and is indicated by rounding off to two decimal places. The same applies hereafter. The total leasable area and total leased area do not include the area of storage space, flat parking lots and machinery, etc. The same applies hereafter.

(Note 3) “Occupancy rate” is calculated by dividing the total leased area for each property by the total leasable area of the property. The total indicates the ratio of the aggregate total leased area for all properties to the aggregate total leasable area for all properties.

(Note 4) “Number of tenants” is computed by counting the number of tenants as to the properties with fixed-rent master lease agreement and Laforet Harajuku (Land) as one. As for other properties, in the case of offices and shops, any one tenant which occupies more than one leased premise within the same property shall be counted as one, and in the case of residence, each residential unit shall be counted as one. The same applies hereafter.

- (Note 5) “Annual contracted rent” for each property is calculated by multiplying the monthly rent provided in the relevant lease agreement, etc. with the end-tenant (which shall be the monthly rent after a free rent period if a free rent period has been established at the beginning of the lease period, or the amount charged to the end-tenants during the period from July 1, 2022 to July 31, 2022 if a percentage rent is adopted) by 12. In the case of Koraku Mori Building, Atago Green Hills, Toranomom Hills Mori Tower and Laforet Harajuku (Land), this indicates 80%, 74%, 78% and 93% (i.e., the ownership ratio), respectively, of the amount so calculated. In the case of ARK Hills South Tower, it indicates the 25% co-ownership interest ratio of the annual contracted rent. In the case of Akasaka Tameike Tower, the office and shop portions are calculated by multiplying annual contracted rent from the private-use areas of sectional ownership owned by the trustee, the Asahi Shimbun Company and Mori Building Co., Ltd (all of the relevant portions under these uses) by the distribution ratio for the trust beneficiary interest owned by Mori Hills REIT Investment Corporation (65.9%), and the residential portion is calculated by multiplying annual contracted rent from the private-use areas of sectional ownership owned by the trustee and the Asahi Shimbun Company (128 units) by the distribution ratio for the trust beneficiary interest owned by Mori Hills REIT Investment Corporation (67%). The same applies hereafter.
- (Note 6) “Security Deposits” indicates the remaining amount of the security deposit set forth in the relevant lease agreement, etc. with the end-tenant. With regard to Roppongi View Tower, this indicates the amount set forth in the lease agreement with Mori Building Co., Ltd., as master lessee. In the case of Koraku Mori Building, Atago Green Hills and Toranomom Hills Mori Tower, this indicates 80%, 74% and 78% (i.e., the ownership ratio), respectively, of such remaining amount of the security deposit. In the case of ARK Hills South Tower, it indicates the 25% co-ownership interest ratio of the security deposits. In the case of Akasaka Tameike Tower, the office and shop portions are calculated by multiplying security deposits from the private-use areas of sectional ownership owned by the trustee, the Asahi Shimbun Company and Mori Building Co., Ltd (all of the relevant portions under these uses) by the distribution ratio for the trust beneficiary interest owned by Mori Hills REIT Investment Corporation (65.9%), and the residential portion is calculated by multiplying security deposits from the private-use areas of sectional ownership owned by the trustee and the Asahi Shimbun Company (128 units) by the distribution ratio for the trust beneficiary interest owned by Mori Hills REIT Investment Corporation (67%). The same applies hereafter.

(iii) Overview of Lease to Major Tenant

(Note 1) “Leased area” is equivalent to floor area of leased space set out in the lease agreement, etc. with the end-tenant. In the case of Koraku Mori Building, Atago Green Hills and Toranomom Hills Mori Tower, this indicates 80%, 74% and 78% of the proportionate ownership ratio, respectively, of the foregoing leased area, which is rounded off to two decimal places. In the case of ARK Hills South Tower, it indicates 25% of co-ownership interest ratio of the leased area of the building, which is rounded off to two decimal places. In the case of Akasaka Tameike Tower, the office and shop portions are calculated by multiplying leased area from the private-use areas of sectional ownership owned by the trustee, the Asahi Shimbun Company and Mori Building Co., Ltd (all of the relevant portions under these uses) by the distribution ratio for the trust beneficiary interest owned by Mori Hills REIT Investment Corporation (65.9%), and the residential portion is calculated by multiplying leased area from the private-use areas of sectional ownership owned by the trustee and the Asahi Shimbun Company (128 units) by the distribution ratio for the trust beneficiary interest owned by Mori Hills REIT Investment Corporation (67%), and is indicated by rounding off to two decimal places. The leased area does not include the area of storage space, flat parking lots, and machinery, etc. The same applies hereafter.

(Note 2) “Percentage of total leased area” indicates the ratio of the total leased area of each property to the aggregate total leased area for all properties held by the Company as of July 31, 2022. The same applies hereafter.

(Note) With regard to structures constructed by special structural methods, such as super high-rise structures or seismic isolated structures, a structural evaluation involving a more detailed examination than general standards must be obtained pursuant to building standards laws and regulations (performance assessment under the Building Standards Act from 2000). In addition, there are cases where it is obtained in accordance with the instructions, etc. of administrative authorities.

(viii) Overview of Engineering Reports

The Company engages an engineering firm to investigate the status of the building (including earthquake risk analysis) and obtains an engineering report from the firm for each property. The following table shows the status of properties held by the Company as of July 31, 2022. “Estimated amount of emergency repair expenses” is the emergency repair expenses estimated by the engineering firm. “Estimated amount of long-term repair expenses” is the annual average amount of repair and renovation expenses over a period of 15 years estimated by the engineering firm.

The report provides a mere opinion of the engineering firm and no guarantee is provided as to the accuracy of the opinion.

No earthquake insurance has been taken out for properties held by the Company.

Property number	Property name	Preparation date	Estimated amount of emergency repair expenses (thousands of yen)	Estimated amount of long-term repair expenses (thousands of yen) (Note 1)(Note 2) (Note 3)(Note 4) (Note 5)	PML (%) (Note 6)	Engineering firm

(Note 1) For property tax, city planning tax and depreciable assets tax, the Company charges the amount of property taxes assessed and determined applicable to the fiscal period to property operating expenses. Registered owners of properties in Japan as of January 1 are responsible for paying property taxes for the calendar year based on assessments by local governments. Therefore, registered owners who sold properties to the Company were liable for property taxes and city planning taxes for the calendar year, including the period from the date of the acquisition by the Company until the end of the year. The Company reimbursed sellers of properties for the equivalent amount of property taxes and included the amount in the acquisition cost of real estate.

(Note 2) “Other expenses” denotes the sum of custodian fees, rent expenses, and other lease business expenses (residential property management costs, and other property-related miscellaneous expenses) in aggregate.

(Note 3) Additionally acquired on August 2, 2021.

(Note 4) Partially transferred on July 1, 2022.
